1. Operating Results

(1) Overview

In the fiscal period under review (the three -month period from April 1, 2025 to June 30, 2025, hereinafter the "first quarter"), economic recovery continued moderately worldwide. Meanwhile, the pace of recovery in some countries and regions has slowed amid weak demand and tightened monetary policy.

In Japan, economic activity has continued to recover with the improvement of employment and income environment. However, uncertainty arising from U.S. trade policies persists.

The Mitsui Chemicals Group (hereinafter the "Group") reported the operating results for the first quarter as follows. The Group employs operating income before special items which stands for operating income excluding non-recurring items (e.g., losses resulting from withdrawing from and/or downsizing businesses) as a management indicator.

(Billions of Yen)

	Sales Revenue	Operating Income before Special Items	Operating Income	Net Income Attributable to Owners of the Parent
First Quarter	415.4	26.6	12.8	0.7
Same period of previous fiscal year	449.5	30.2	27.2	17.9
Difference	(34.1)	(3.6)	(14.4)	(17.2)
Difference (%)	(7.6)	(11.8)	(53.1)	(95.9)

Sales revenue was 415.4 billion yen, a decrease of 34.1 billion yen, or 7.6%, year on year. This result was mainly due to the decrease in selling prices, which was resulting from the fall in raw material prices, such as naphtha, and the impact of exchange rate differences.

Operating income before special items was 26.6 billion yen, a decrease of 3.6 billion yen, or 11.8%, year on year. This result was mainly due to the worsened inventory revaluation gain and loss resulting from the fall in raw material prices, such as naphtha.

Operating income was 12.8 billion yen, a decrease of 14.4 billion yen, or 53.1%, year on year. This result was mainly due to the decrease in operating income before special items and the recognition of an impairment loss on an investment accounted for using equity method to operate phenol businesses in China.

Financial income/expenses worsened 4.9 billion yen year on year to a 2.8 billion yen loss.

As a result of the aforementioned factors, **income before income taxes** amounted to 10.0 billion yen, a decrease of 19.3 billion yen, or 66.0%, year on year.

Net income attributable to owners of the parent after accounting for income taxes and non-controlling interests was 0.7 billion yen, a decrease of 17.2 billion yen, or 95.9%, year on year. Basic earnings per share for the period amounted to 3.89 yen.

Accordingly, the results for the same period of the previous year have been reclassified into the reportable segment classifications after the

revisions.

Life & Healthcare Solutions

Sales revenue decreased 0.3 billion yen compared with the corresponding period of the previous fiscal year to 56.3 billion yen and comprised 13% of total sales. In **agrochemicals**, sales were healthy.

Mobility Solutions

Operating income before special items decreased 0.9 billion yen to 14.6 billion yen year on year. The decrease in income was due to the worsened terms of trade by exchange rate differences, despite healthy sales in elastomers.

In **elastomers**, sales were healthy. Meanwhile, terms of trade worsened due to exchange rate differences.

In **polypropylene compounds**, sales remained at the same level as the corresponding period of the previous fiscal year. In addition, the revision of prices contributed to an improvement in the terms of trade, despite the adverse impact of exchange rate differences.

ICT Solutions

Sales revenue increased 0.7 billion yen compared with the corresponding period of the previous fiscal year to 69.0 billion yen and comprised 17% of total sales. Operating income before special items increased 2.8 billion yen to 9.0 billion yen year on year. This was mainly due to healthy sales in semiconductor & optical materials and ICT films & sheets.

In **semiconductor & optical materials**, sales were healthy due to a recovery in demand in the semiconductor market.

In **coatings & engineering materials**, sales remained at the same level as the corresponding period of the previous fiscal year.

In **ICT films & sheets**, sales were healthy due to a recovery in demand in the semiconductor market.

In **nonwovens**, sales remained at the same level as the corresponding period of the previous fiscal year.

Operating income before special items decreased 6.8 billion yen, resulting in a 2.9 billion yen loss. This was mainly due to the worsened inventory revaluation gain and loss resulting from the fall in raw material prices, such as naphtha.

Sales of **phenols** remained weak.

In **polyolefin**, price revisions have improved terms of trade.

Naphtha cracker operating rates remained low due to a decrease in demand for downstream products and the scheduled major maintenance.
