Mitsui Chemicals group to Exhibit at K2019 Trade Fair in Düsseldorf, Germany

Mitsui Chemicals, Inc. (Tokyo: 4183; President & CEO: Tsutomu Tannowa) will exhibit at K 2019 – the 21st International Trade Fair for Plastics and Rubber. The event is scheduled to be held over October 16–23, 2019, in Düsseldorf, Germany, and is known as one of the largest exhibitions for plastics in Europe.

At the trade fair, the Mitsui Chemicals Group will present innovative materials that contribute to the circular economy, as well as performance-driven products and technologies eyed for automotive, packaging, and other industries in the European market.

Please visit our dedicated website for more detail.

◆Overview of Mitsui Chemicals Group's Exhibition

Exhibition period : October 16 (Tue) – October 23 (Tue), 2019
Venue: Düsseldorf Fairgrounds / Düsseldorf, Germany
Booth location : 7a / D18

◆Exhibition items of Materials and information

- ABSORTOMER™ / olefin based thermoplastic elastomer
- ADMER™ / Adhesive polyolefin
- APEL™ / Cyclo olefin copolymer (COC)
- ARLEN™ / Modified polyamide 6T

- AURUM™ / Thermoplastic polyimide
 - BEAULON™ / Polybutene-1
 - Ethylene-propylene-terpolymer (EPDM)
 - LUBMER™ / Self-lubricating special polyolefin resin and fine-powder polyethylene
 - LUCANT™ / Hydrocarbon based synthetic oil
 - MILASTOMER™ / Thermoplastic olefinic elastomer
 - Mono-material packaging
 - Nagori™ / Innovative thermal conduction polymer
 - PP-Compound / For automotive applications
 - TAFMER™ / Alpha-olefin copolymer
 - TAFNEX™ / Carbon fibre composite material
 - TPX™ / Polymethylpentene
-
