Ethylene Plant at Ichihara Works Resumes Operations

Mitsui Chemicals, Inc. (Toshikazu Tanaka, President & CEO) announced the resuming of operations at its ethylene plant at Ichihara Works located in Ichihara City, Chiba Prefecture. The plant scheduled temporary suspension of operations until the end of March for repairwork. Necessary repairs and maintenance on facilities have been completed and operations at the plant commenced on March 26th.

Note:

Annual production capacity of Ichihara Works Ethylene Plant is 553,000 tons.
