Impact of Great Eastern Japan Earthquake on Operations (#7)

The Mitsui Chemicals Group updates previous reports on the effects of the March 11, 2011 Great Eastern Japan Earthquake on its operations.

The Group continues to assess the effects of the serious power shortage and implement ongoing power reduction efforts to save energy at its operations.

Kashima Works (Kamisu City, Ibaraki Prefecture)

- Regular maintenance which was undertaken following repair work at some facilities of the Kashima Works was completed on schedule. Production at the Works resumed today, June 23rd.

With commencement of production activities at Kashima Works, operations at all Mitsui Chemicals and Group Company Works return to normal schedules.
